Dec 02 | 2018 - New Year Preview

2019 IS JUST AROUND THE CORNER and it will be an interesting year

Christmas is nearly here and soon a new year begins. We are already making plans for 2019 and there are great things happening.

This year's events will start with **HDL Frühschoppen** in early February, covering Clock Domain Crossing. The overall subject for **FPGA Verification Day** in April will be Safety Critical Design. Interesting new verification tools will be presented as well as the link to **Application Lifecycle Management** (ALM). As always we will keep you up to date on all [events](#).

Of course we are also continuing our program of **training courses**- dates for 2019 can already be found on our [website](#). And while you're there, do not forget to visit our [blog](#) to make sure you are not missing any of the interesting posts.

Did you know we have a big anniversary coming up in 2019? **TRIAS mikroelektronik will be 30 years old**- in addition to being a Mentor - A Siemens Business partner for 20 years. If that is not a reason to celebrate! Follow us on social media and make sure not to miss any of our [newsletters](#) next year - there will be some **interesting anniversary offers**.

And so it remains for us to wish you, your families and colleagues a Merry Christmas and Happy New Year.
