**TRIAS PARTNERS WITH LEC2 : TechWebs 2021**

# LEC2 TECH-WEBS

We are happy to announce our new partnership with LEC2.

The training platform "Lattice Education Competence Center" - LEC2 for short - was

founded in close cooperation between Krassin Consulting GmbH and Lattice Semiconductor Corporation. LEC2 leverages a comprehensive training program that covers the entire development process. The structured training program is offered in a variety of formats: Online, live or recorded, face-to-face training; as well as basic or expert training. TRIAS Trainer, which are experts in their field, develop and hold some of the trainings.

Now we would like to draw your attention to the new webinar series „**LEC2 TechWebs**“: LEC2 provides its customers and partners with application design know-how free of charge. From July 19th to 23rd participants can look forward to numerous webinars - which also include classes held by TRIAS mikroelektronik.

[Info and Registration](#)

By the way, we were able to win Eugen Krassin of Krassin Consulting as Keynote Speaker for **FPGA Verification Day, which takes place on 23 September 2021**. More information about this event will follow soon.

And, we appreciate your questions and feedback at all times - just contact us on +49 (0)2151/95301-0 or by email: [info@trias-mikro.de](mailto:info@trias-mikro.de).

Best regards and stay safe

Pia Pacovsky
